

The Harvey L. Foster Foundation for Science Education

“Providing incentives for students of all ages to develop an interest in science and to support science education at all levels.”

Announcing the Harvey L. Foster Foundation for Science Education 2020 HLFF Scholarship

Dear High School Educators,

The Harvey L. Foster Foundation for Science Education was founded in 2007 with the mission to award the ambition of our future science leaders of tomorrow with college tuition today. From grade school to grad school, the Foundation is supporting the next generation of scientists, engineers and chemists through our educational initiatives. Whether it's introducing the marvels of science and engineering to students through our career day mentoring programs, rewarding excellence in high school science fair competitions, or providing scholarships for students to pursue science careers, the Foundation strives to touch the lives of thousands of students community-wide every day.

The Foundation will award several science scholarships for the 2019-2020 academic year. The 2020 HLFF Scholarship provides up to an \$8,000 award (up to \$1,000 per semester for a maximum of four years pending qualifications met) for tuition, fees, books, living expenses, etc., to an eligible high school senior. Students attending any American university are eligible for this scholarship.

Applicants must graduate from a local high school in St. Tammany, Tangipahoa, Livingston, or Washington Parish and meet all other necessary requirements to apply. Selection will be made in April 2020 and the scholarship award will be sent directly to the university after enrollment verification.

If your school has students whom you would like to compete for this scholarship please encourage them to apply. The complete application and all required documentation must be received by January 31, 2020. Additional information can be received by calling Christine Foster, cell 985-264-1737, or emailing cfoster@theharveylfosterfoundation.com. The Microsoft Word and PDF files are located on the Foundation's website www.theharveylfosterfoundation.com.

The Foundation also donates money that can be applied toward the purchase of science products to schools. To learn more, please visit the above link and click on the Science Equipment tab.

Please help us with our mission to reward ambition with tuition. We look forward to hearing from you today!

Regards,

Christine Foster
